Delivering Local Service and Support Since 1983

Sales

Tier one and niche products delivered on time and on budget

We offer a vast range of IT products backed up by experienced account advisors and support staff who go out of their way every day to make your experience exceptional. With product authorizations and certifications from hundreds of tier one and niche vendors we can assist you in configuring, supporting and maintaining your data center, edge points and everything in between. We invite you to enjoy what over 52,000 individual, corporate, and government customers have since 1983: expert, trusted IT procurement at competitive prices.

Service

Factory trained depot and on-site technical staff

Since 1983 KIS has provided a complete solution for premise based computing. Our certified technical staff offers pre and post warranty coverage for most tier one manufacturers on a carry in and on-site basis. In most situations, expedited same day service is available and a free estimate is available before any work is started.

Solutions

Effective technology driven solutions for your business

Whether you are a small business with limited IT resources or an enterprise with a global foot print your company can benefit from engaging with our relentless customer service oriented Account Advisors and technical staff. From IT procurement and technical services to managed services and cloud computing we have the Hampton Roads area covered.
